The accompanying Forms PTO-1449, lists the invalidity contention, claim chart, and Exhibit B.

The Applicant is submitting copies of the listed items. The Applicant respectfully requests the Examiner to consider the documents cited here and to initial the left-most column of the enclosed Forms PTO-1449, adjacent each reference, and to return a copy for the Applicant's records to ensure that the public record reflects all the documents that have been properly cited and considered.

constitute an admission by the Applicant or the Applicant's representatives that the information provided here is necessarily prior art to the Applicant's invention that is claimed in this patent. The references are cited here only because they were brought to the Applicant's attention during prosecution, licensing or litigation, whereby others alleged arguments that may be material to the patentability of claims within the Applicant portfolio and possibly to the present application. As a result of on-going licensing and litigation, documents and references continue to be cited. Accordingly, this document will be supplemented to the extent additional information becomes available.

The Applicant believes that the invention claimed here is distinct and reserves the right to establish patentability of the claimed invention over the references listed should they be asserted against the Applicant's claims.

Please charge our **Deposit Account No. 50-3102** in the amount of \$180.00 to cover the fee pursuant to 37 CFR § 1.17(p). The Commissioner is authorized to charge any fees required by the filing of these papers, and to credit any overpayment to our Deposit Account No. **50-3102**.

Respectfully submitted,
